

Dutch Barn Doors

Armour Horse Stalls manufactures several different types of barn doors. One of our popular barn door styles that we offer is our Dutch Barn Door. The Dutch Barn Doors are hinged doors that can be ordered as a single or double panel door. Our Dutch Barn Doors can be ordered in a variety of designs including: Coolbreeze, Endura, Smoothie, Tongue and Groove, and Crossbuck. Our Coolbreeze Dutch Barn Doors have a bar top design and can be ordered with or without the Scuff Panel. Our Endura Dutch Barn Doors are made out of a heavy-duty PVC plastic material and can be ordered in the Tongue and Groove or Crossbuck design. Our Tongue and Groove Dutch Doors are made out of number one grade Southern Yellow Pine lumber and come fully assembled and ready for installation. Armour's Crossbuck Dutch Doors are manufactured from the highest quality lumber and aluminum materials and include the timeless "x" design. Each of our Dutch Barn Doors come fully assembled and include all of the hardware needed for installation. This hardware includes a zinc-plated super latch, stainless steel 6" T-hinges and zinc-plated fasteners.

End Barn Doors

Armour's End Barn Doors come in a variety of designs, with our Superstructure leading in industry innovation. Our End Barn Door Superstructure includes a unique, lightweight aluminum frame for easy installation without having to use a crane or heavy machinery. After the Superstructure is in place, you are then able to add your own 2x6 lumber of choice to the structure. Since you are able to add or remove the lumber out of the Superstructure, it makes it easy to replace boards on your barn doors in future years to come. If you prefer a fully assembled end barn door with lumber or Endura included, we have those options, as well. Our Lumber and Endura End Barn Doors are designed with a Double Dutch appearance and include two panels per opening.

Tack Feed Doors

Our Tack Feed Doors are very customizable and come in several different options to fit any barn design need. For a traditional and classic look, our Crossbuck Not Split Doors are a great choice to go for. They have the appearance of a Double Dutch Barn Door, but come in one whole piece. Our Tack Feed Room Doors are a great way to add some customization to your barn, as a logo or lettering can be added to the door at an additional cost. All of the lumber is included in both the Crossbuck Not Split Doors and the Tack Feed Room Doors. Both doors also come fully assembled with hardware for installation and can be ordered as either hinged or sliding. Armour's Tack Feed Superstructures are like our End Barn Door Superstructure, as they are an all-aluminum frame that you add your own lumber to. These Tack Feed Superstructures are a great cost effective option and they receive 2x6 lumber boards.

Barn Windows

Barn windows, otherwise known as barn shutters, are designed to keep rain and other types of weather from entering the interior of a barn. Each of our barn windows are manufactured with the same high-quality materials and craftsmanship as our barn doors and other products. Armour

offers both hinged shutters and sliding shutters and either one can be ordered with lumber, Tongue and Groove, or Endura materials. When it comes to design, our barn windows can be ordered in Crossbuck, Vertical or Horizontal Tongue and Groove, Smoothie, and any Endura design that we offer. Each of our barn shutters can also be ordered in either single or double swing, depending on the design that you are looking for. Our barn windows are 1 3/4" thick and can be ordered with custom sizing and designs to fit your barn. All of our barn windows come with the hardware that you will need for installation including: stainless steel hinges, zinc-plated latches, stainless steel hook and eye set, round galvanized track, zinc plated trolley wheels, aluminum stops, zinc plated stay-roller guide, and aluminum astragals. If you have any questions or are looking to place your order, please feel free to give us a call at 800-876-7706 or visit our website. Thank you, we appreciate your business.
